

# SCHOOL AT HOME

## *Establishing* A ROUTINE

### BEGIN WITH A FAMILY MEETING

- Have a family meeting and prayer time to discuss priorities and how to best establish a new routine, balancing each person's responsibilities and needs at home, especially if your family consists of parents working from home and children schooling from home.

### ESTABLISH A NEW ROUTINE

- Create a flexible routine that will fit your family's scheduling needs. If the routine fails, don't be discouraged! Schooling at home doesn't need to look just like schooling in the classroom.

### DISCOVER THE JOY OF LEARNING & TEACHING!

- Make schoolwork a priority for your children. Help your children set up a place to study and prioritize their coursework as detailed by your child's teacher.
- Be flexible and be willing to try something new when one approach isn't working. Changing the timing, location in the house, and overall approach can make a significant impact on the tone of schooling at home. Discover the JOY of learning alongside your children!

## EXTENDING A COVENANT EDUCATION TO THE HOME
