

# *Prioritizing* PRAYER

Our world looks different each day. While many of us are simply inconvenienced to stay at home, many others around the globe are suffering, fearful, lonely, or struggling financially.

Let's help our children look beyond the walls of our homes to see others' needs and then lift these needs to our Lord.

## **LIFE AT HOME**

- How is life different now?
- How are we struggling as a family with this transition? How are we growing as a family?
- What are our specific needs as a family?

## **LIFE AROUND THE WORLD**

- How is life different around the world?
- What states, countries, or continents are struggling most with the spread of COVID-19?
- How can we be in prayer for those in other areas of the world?

## **LIFE IN OUR COMMUNITY**

- How has our community changed?
- Who do you know that might be having a difficult time right now? (Examples: widows, the homeless, people struggling with mental health issues, those who have lost their jobs, those in hospitals, health care workers, the elderly in nursing homes, etc.)
- How can we pray for these people? How can we minister to them from our home?
