RELEASE FROM QUARANTINE

FOLLOWING COVID-19 CLOSE CONTACT

According to the Illinois Department of Public Health guidelines for returning to school, students must present proper documentation to school authorities before being allowed to return to in-person learning after being exposed to COVID-19.

If a student has had close contact with someone who has tested positive for COVID-19 or who has had close contact with someone who is a probable case for COVID-19, the student is required to quarantine for 14 consecutive days following the last COVID-19 exposure.

Close contact is considered anyone, with or without a face covering, who was within 6 feet of a confirmed case of COVID-19, with or without a face covering, for at least 15 minutes throughout the course of a day.

Please download and return this form to the school office prior to returning to school. Contact the front desk if you have any additional questions.

Yes, my child was in close contact with someone who is a positive or probable COVID-19 case.

Yes, my child quarantined for 14 consecutive days following the last COVID-19 exposure.

_____ Date of Last Exposure to COVID-19

_____ Date of Last Day of Quarantine
